

The very best of classic Soul, Blues and Motown.

The most recommended band in the UK

Warning: a night with Junction 2 will leave your feet pounding and your head swimming with great sights and sounds. With the hottest horn section this side of Memphis and rock steady rhythms to groove to, not to mention the outstanding vocals of the one and only Joe Greaves - it's no surprise that we are the most revered Soul and Motown revue band of this generation!

On Lead Vocals

Joe Greaves consistently out-sings and out-performs the best in the business a fact regularly attested to by Junction 2 audiences. Don't take our word for this, listen to the demo and check out Joe's performance live, you will be impressed!

With bravura vocal performances, a sizzling stage presence and instinctive crowd charisma, Joe will get your venue's audiences to their feet every time and will always live up to his reputation as *Peerless and Fearless*.

Live Horns

Glamour in the front line comes courtesy of the sensational Abi Hill and Deb Hutt, showcasing a full range of saxophones from deep baritone to silky soprano, with Simon Powell completing the vibrant and exciting horn line-up with his soaring trumpet virtuosity.

Backline

A drums, bass, guitar and keys backline that you can take to the bank, Delvin and Colin's rock solid grooves are everything you want to hear in a great drum and bass partnership, whilst the sparkling performances of Pete on guitar and Jon on keys complete our dynamic rhythm section. The permanence and commitment of our line up gives Junction 2 the edge. These guys know each others' playing inside out.

The Pedigree

Junction 2 has been careful to assemble a line up which really gels on stage and is of single purpose in its attention to detail and its determination to give 110%. The mounting of our shows is scrupulously professional as are our dealings with all venues, officials, staff and clients.

The Show

The members of Junction 2 are all seasoned professionals who have honed their craft in many and diverse bands across the UK, Europe and the United States. This collective experience comes together under the musical direction of keyboard player Jon Scott, whose authentic, dynamic and energetic arrangements lifts Junction 2 way above the commonplace.

♪ Pitch perfect 4 part harmonies and backing vocals

We know that poorly executed vocals will ruin the night of even the least musical audience members. In a Junction 2 show, everyone is in key, all of the time! A real asset of which Junction 2 are rightly proud.

Dependability

Junction 2 will be there on time and deliver the same level of excellence every time.

Our Repertoire

Comprising the very best of classic Soul, Blues and Motown, our standard sets last around 45 minutes each, but can be adapted to suit the venue or event. We can provide up to 3 sets. Here is a list of some songs from our current repertoire.
